

kauli seadi & andy 'bubble' chambers will join the JP Young Gun Camp

don't miss the chance to be with them at the camp! book now
there is a limited number of participants only!

Kauli Seadi (BRA-253) and Andy 'bubble' Chambers (K-540) will join the JP Young Gun Camp 2009 in Prasonisi!

Starting 6th August a one week freestyle and wave training for youngsters will be held at the Pro Center Christof Kirschner. A maximum of 40 participants will be coached by the world's best riders and professional coaches in the disciplines freestyle and wave.

Kids from many nations will share their passion for the sport and improve their skills in an amazing way!

A professional video team will accompany the youngsters and record hour by hour. With all their experience they will cut the daily video immediately. Only a few hours after the training the video will be ready and presented to the kids on a wide screen. We'll also put it straight on the internet. So all friends, parents and relatives have the opportunity to follow the camp on a daily basis.

This year's big surprise: the world cup heroes Kauli Seadi and Andy Chambers will join the other coaches and show some sick action on the water!

Like last year Steve Chismar will be head coach. Steve has been working as an editor and tester for the German Surf Magazin for more than 10 years. He started windsurfing at

the age of 12. Steve managed a windsurf school on Corsica for 2 years, thereafter he worked as a head-instructor for Naish Hawaii on Oahu and as a centre manager for Michel Bouwmeester for 12 years. His motto: Windsurfers for peace!

We are also very happy to have the coaches **Manuel Vogel** and **Jonas Holzhausen** with us again!

Manuel is windsurf instructor at the University of Kiel in Germany. He speaks English and French and is a licenced VDWS surf instructor. Manuel has been testing for the German Surf Magazin since 2004 and is a true walking freestyle – move library.

Jonas is an educator at the Russee youth centre in Kiel. His focus is on experiential education and he arranges organised activities for young people. In addition he is a licenced VDWS surf instructor and teaches windsurfing at the University of Kiel. Since 2004 he has been part of the test team of the Surf Magazin and like Manuel he is a real freestyle pro.
